

# 13<sup>th</sup> International Workshop On Subsecond Thermophysics

Announcement

Tufts University

1 June 2019

Dear Colleague,

The 13<sup>th</sup> International Workshop on Subsecond Thermophysics (IWSSTP 2022) will be held July 2022 at Tufts European Center in Talloires France. Please mark your calendars.

The workshop will cover all aspects of thermophysical property measurement under extreme conditions. This includes:

- Fast and transient methods (pulse and volume heating)
- Levitation techniques (on ground and in microgravity)
- Theory and Experiment

The emphasis will be on high temperatures and/or the study of the behavior of matter under conditions close-by and far-away from thermodynamic equilibrium. There will be oral and poster sessions as well as contributed and invited presentations.

Registration and abstract submission will start by 1 September 2021. The deadline for abstract submission is 15 January 2022 and the participation fee will be due by 15 March 2022. Further details are found on the website which will be coming soon.

Please also check future announcements with more details and updates on guidelines, deadlines, fees, and the social program. We expect around 60 of the best scientists in the field, including yourself. A selection of the best papers will be published in the Journal "High Temperatures-High Pressures".

We cordially invite you to join IWSSTP 2022 and welcome your submission.

Yours sincerely,
